  - If the bonds are issued in any other currency, RegS securities are included.
- **Dow Jones Brookfield Global Infrastructure ex MLP Corporate Bond Index.** The following securities are included in the index:
  - If a security is either RegS or 144A and is exchange listed, the security is included.
  - Unlisted RegS securities are included in a Trash Bucket, an allocation that cannot exceed 10% of the market value of the index. The Trash Bucket is therefore capped at 10% of the index.
  - Unlisted 144A securities that have registration rights less than 365 days from the date of issue are included.
  - Unlisted 144A with registration rights equal to or greater than 365 days from the date of issue, registration rights that have lapsed, or are without registration rights are included in the Trash Bucket.

**Ratings.** Investment grade and high yield bonds are eligible.

- **New Issues.** New issues must be rated by at least one rating agency as of the reference date to be considered at the next rebalancing.
- **Non-rated and Defaulted Bonds.** Bonds that are not rated or in default are removed at the next rebalancing.
- **Investment Grade.** The minimum credit rating for inclusion in investment grade indices is BBB-/Baa3/BBB-. The lowest available rating from S&P, Moody's, and Fitch is used as the issue's rating.
- **High Yield.** The maximum credit rating for inclusion in high yield indices is BB+/Ba1/BB+. The lowest available rating from S&P, Moody's, and Fitch is used as the issue's rating.

*For ratings-based sub-indices, the above rules are applied to the appropriate ratings band.*

# Index Construction

## Index Calculations

**Dow Jones Brookfield Global Infrastructure Broad Market Corporate Bond Index.** The index is market-value-weighted.

**Dow Jones Brookfield Global Infrastructure ex MLP Corporate Bond Index.** The index is modified market value weighted. At each rebalancing, the following weights are applied:

1. Issuers are capped at 5%.
2. If the Trash Bucket exceeds 10% following step 1, a 10% cap is applied. The excess weight is redistributed proportionally to all uncapped securities.

For each index, the total return is calculated by aggregating the interest return, reflecting the return due to paid and accrued interest, and price return, reflecting the gains or losses due to changes in the end-of-day price and principal repayments.

*For further details regarding Index Calculations please refer to the S&P Dow Jones Indices' Fixed Income Mathematics Methodology document.*

# Index Maintenance

## Monthly Rebalancing

Based on new issuance, size and maturity, the bonds in an index are subject to change every month, effective after the close of the rebalancing date. Data as of the rebalancing reference date is used to determine security eligibility and index inclusion for the subsequent month<sup>1</sup>. Any market events after this date that affect the constituent membership are reflected on the next rebalancing date.

Additions, deletions and other changes to an index arising from the monthly rebalancing are published on the announcement date. Changes to an index that are published in the announcement are not normally subject to revision and are effective after the close on the rebalancing date.

Rebalancing Schedule	
Rebalancing Frequency	Monthly
Rebalancing Date	Last day of the rebalancing period (T)
Announcement Date	T minus 3
Reference Date	T minus 6

# Index Governance

## Index Committee

S&P Dow Jones Indices' Fixed Income Index Committee maintains the indices. All committee members are full-time professionals at S&P Dow Jones Indices. Meetings are held quarterly and whenever deemed appropriate.

The Index Committee oversees the management of the indices, including determinations of intra-rebalancing changes, maintenance and inclusion policies, and other matters affecting the maintenance and calculation of the indices.

In fulfilling its responsibilities, the Index Committee has full and complete discretion to (i) amend, apply, or exempt the application of index rules and policies as circumstances may require and (ii) add, remove, or by-pass any bond in determining the composition of an index.

The Index Committee may rely on any information or documentation submitted to it or gathered by it that the Index Committee believes to be accurate. The Index Committee reserves the right to reinterpret publicly available information and to make changes to the indices based on a new interpretation of that information at its sole discretion. All Index Committee discussions are confidential.

The Index Committee is separate from and independent of other analytical groups at S&P Global. In particular, the Index Committee has no access to or influence on decisions by S&P Global Ratings analysts.

S&P Dow Jones Indices' Index Committees reserve the right to make exceptions when applying the methodology if the need arises. In any scenario where the treatment differs from the general rules stated in this document or supplemental documents, clients will receive sufficient notice, whenever possible.

In addition to the daily governance of indices and maintenance of index methodologies, at least once within any 12-month period, the Index Committee reviews the methodology to ensure the indices continue to achieve the stated objectives, and that the data and methodology remain effective. In certain instances, S&P Dow Jones Indices may publish a consultation inviting comments from external parties.
