Introduction

Index Objective

The S&P/ASX Australian Fixed Interest Index Series is a benchmark index family designed to measure the performance of the Australian bond market. The series meets certain investability criteria. It includes an Australian Bank Bill Index, which measures the performance of the Australian short-term money market, and an Australian Inflation-linked Bond Index, which measures the performance of the Australian inflation-linked bond market.

Partnership

Together with the S&P/ASX index family, the S&P/ASX 200 was launched in the Australian market in April 2000. The launch of these indices coincided with S&P Dow Jones Indices taking over the index business, formerly owned and managed by the Australian Securities Exchange (ASX).

The S&P/ASX Australian Fixed Interest Index Series is designed for use by institutional investment managers, managed and superannuation funds, and professional advisors.

Both S&P Dow Jones Indices and the ASX have a long history in servicing both debt and equity markets, domestically and globally. The introduction of the S&P/ASX Australian Fixed Interest 0+ Index Series complements the existing S&P/ASX equity and fixed income indices, providing a complete investable offering to investors across asset classes.

Index Family

The S&P/ASX Australian Fixed Interest 0+ Index is the flagship bond index. The index measures the performance of the Australian fixed rate bond market. It is a broad, market value weighted benchmark split across investable investment grade, Australian dollar denominated bonds issued in the local market. The S&P/ASX Corporate Issuer Equal Weight Index is also offered as a narrower, equally-weighted solution comprised of defined corporate issuers. The S&P/ASX Inflation-Linked 0+ Bond Index covers capital-indexed bonds, with the capital value of the investment being adjusted with movement in the Consumer Price Index (CPI). Indices are also offered across defined maturity buckets, ratings bands and sector level indices.

Maturity bucket indices include:

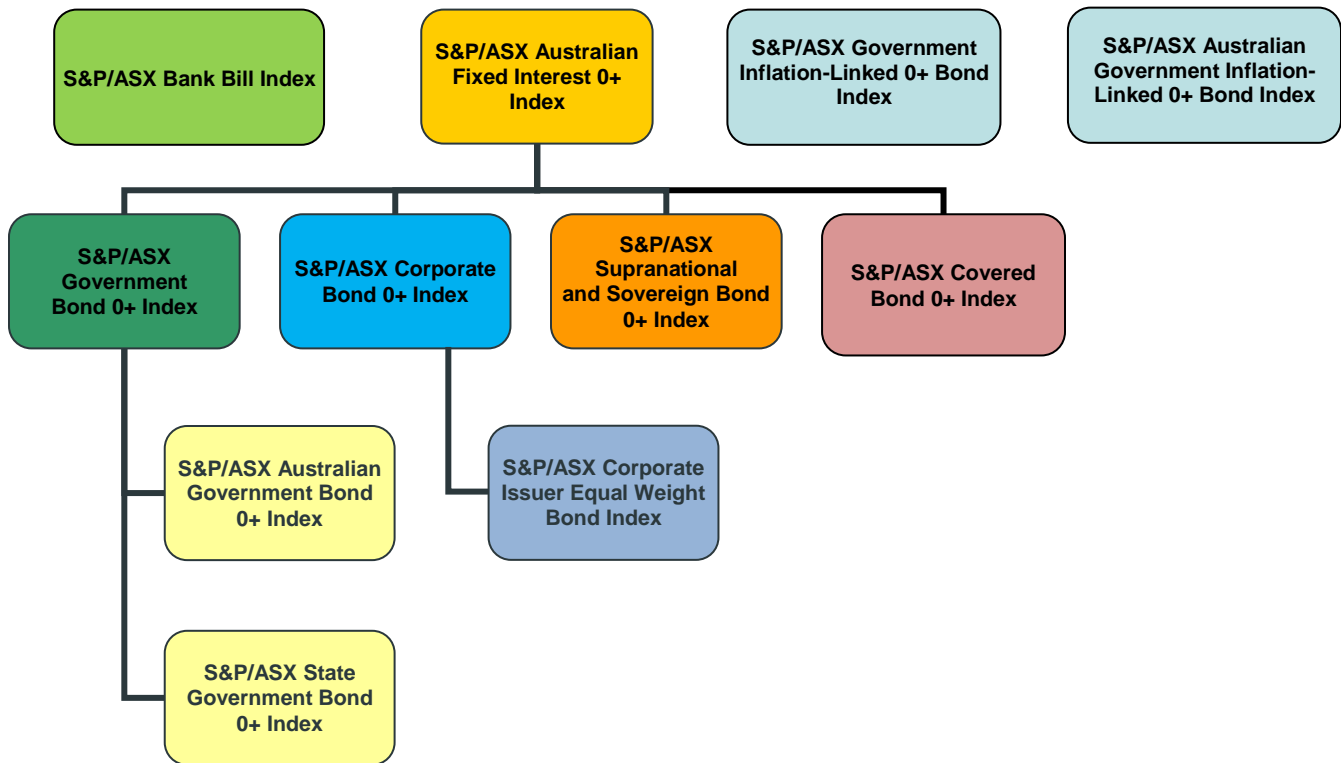

- 0 – 3 years
- 0 – 5 years
- 0 – 10 years
- 0 – 15 years
- 0 – 20 years
- 1 – 5 years
- 5 – 10 years
- 10 – 15 years
- 15 – 20 years
- 1+ years
- 10+ years
- 15+ years
- 20+ years

Credit rating band indices include:

- AAA
- AA
- A
- BBB

Sector level indices include:

- S&P/ASX Government Bond 0+ Index
- S&P/ASX Australian Government Bond 0+ Index
- S&P/ASX State Government Bond 0+ Index
- S&P/ASX Corporate Bond 0+ Index
- S&P/ASX Supranational and Sovereign Bond 0+ Index
- S&P/ASX Covered Bond 0+ Index

S&P/ASX Government Bond 0+ Index. The index includes all securities in the S&P/ASX Australian Government Bond 0+ Index and the S&P/ASX State Government Bond 0+ Index, excluding inflation-linked bonds.

S&P/ASX Australian Government Bond 0+ Index. The index is comprised of bonds issued by the Australian Government (Treasury bonds) which meet the criteria detailed below.

S&P/ASX State Government Bond 0+ Index. The index is comprised of bonds issued by Australian state governments and territories which meet the criteria detailed below.

S&P/ASX Government Inflation-Linked Bond 0+ Index. The index is comprised of inflation-linked bonds issued by the Australian Government or agencies which meet the criteria detailed below. The constituents of this index are excluded from the S&P/ASX Government Bond 0+ Index. The S&P/ASX Government Inflation-Linked Bond 0+ Index covers eligible bonds across the full range of maturities.

S&P/ASX Australian Government Inflation-Linked Bond 0+ Index. The index is comprised of inflation-linked bonds issued by the Australian Government which meet the criteria detailed below. The

constituents of this index are excluded from the S&P/ASX Australian Government Bond 0+ Index. The S&P/ASX Australian Government Inflation-Linked Bond 0+ Index covers eligible bonds across the full range of maturities.

S&P/ASX Corporate Bond 0+ Index. The index is comprised of bonds issued by Australian corporations and Kangaroo bond issues which meet the criteria detailed below.

S&P/ASX Corporate Issuer Equal Weight Bond Index. The index is comprised of the top 50 issuers by total market value. Each issuer within the index is allocated a 2% weight at each semi-annual rebalancing.

S&P/ASX Supranational and Sovereign Bond 0+ Index. The index is comprised of supranational and sovereign bonds. Supranational bonds are defined as those issued by entities formed by two or more central governments to promote economic development for the member countries (e.g. the European Investment Bank and the Asian Development Bank). Sovereign bonds include sovereign guaranteed securities with an explicit government guarantee or support from the sovereign, principal or state government which meet the criteria detailed below.

S&P/ASX Covered Bond 0+ Index. The index is designed to measure the performance of the Australian investment grade covered bond market.

S&P/ASX Fixed Interest 0+ Ex-Government Bond Index. The index is a broad benchmark designed to measure the performance of the Australian bond market, excluding government bonds. It is comprised of bonds issued by Australian corporations, supranational issuers, sovereign issuers, kangaroo bonds, Australian government-backed corporate debt, and debt issued by foreign agencies. It excludes bonds from the Australian Commonwealth Government, state governments, territories and semi-government issuers.

S&P/ASX Fixed Interest 0+ Ex-Supranational and Sovereign Bond Index. The index is a broad benchmark designed to measure the performance of the Australian bond market, excluding supranational and sovereign bonds. It is comprised of bonds issued by the Australian Commonwealth Government, state governments, territories, semi-government issuers, Australian corporations and kangaroo bonds. It excludes supranational issuers, sovereign issuers, Australian government-backed corporate debt, and debt issued by foreign agencies.

The S&P/ASX Australian Fixed Interest 0+ Index covers eligible bonds across the full range of maturities permissible within the methodology. There are also sub-indices for specific maturity buckets:

- **S&P/ASX Australian Fixed Interest Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index that mature in one or more years, as of each monthly rebalancing.
- **S&P/ASX Australian Fixed Interest 0-3 Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index that mature in less than three years, as of each monthly rebalancing.
- **S&P/ASX Australian Fixed Interest 0-5 Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index that mature in less than five years, as of each monthly rebalancing.
- **S&P/ASX Australian Fixed Interest 0-10 Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index that mature in less than 10 years, as of each monthly rebalancing.
- **S&P/ASX Australian Fixed Interest 0-15 Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index that mature in less than 15 years, as of each monthly rebalancing.

- **S&P/ASX Australian Fixed Interest 0-20 Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index that mature in less than 20 years, as of each monthly rebalancing.
- **S&P/ASX Australian Fixed Interest 1-5 Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index with a minimum time to maturity of one year and a maximum time to maturity of up to but not including five years, as of each monthly rebalancing.
- **S&P/ASX Australian Fixed Interest 5-10 Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index with a minimum time to maturity of five years and a maximum time to maturity of up to but not including 10 years, as of each monthly rebalancing.
- **S&P/ASX Australian Fixed Interest 10-15 Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index with a minimum time to maturity of 10 years and a maximum time to maturity of up to but not including 15 years, as of each monthly rebalancing.
- **S&P/ASX Australian Fixed Interest 15-20Year Index.** The index includes all bonds in the S&P/ASX Australian Fixed Interest 0+ Index with a minimum time to maturity of 15 years and a maximum time to maturity of up to but not including 20 years, as of each monthly rebalancing.

Eligibility Criteria

Eligibility Factors

Eligible Issuers. Eligible issuers are described in the table below.

Index	Issuer
S&P/ASX Australian Fixed Interest 0+ Index	The issuer must be the Australian Government, state governments, Australian corporations, sovereign issuers, supranational issuers and foreign agency issuers. In addition, Australian government-backed corporate debt, Kangaroo bond issues and all other constituents of the component indices are eligible.
S&P/ASX Government Bond 0+ Index	The issuer must be the Australian Government, state governments, territories, or semi-government issuers.
S&P/ASX Australian Government Bond 0+ Index	The issuer must be the Australian Government.
S&P/ASX State Government Bond 0+ Index	The issuer must be an Australian state government or territory.
S&P/ASX Corporate Bond 0+ Index	The issuer must be an Australian corporation. In addition, Kangaroo bond issues are eligible.
S&P/ASX Supranational and Sovereign Bond 0+ Index	The issuer must be a sovereign issuer, supranational issuer or foreign agency issuer. In addition, Australian government-backed corporate debt is eligible.
S&P/ASX Government Inflation-Linked Bond 0+ Index	The issuer must be the Australian Government, state governments, territories, or semi-government issuers.
S&P/ASX Australian Government Inflation-Linked Bond 0+ Index	The issuer must be the Australian Government.
S&P/ASX Covered Bond 0+ Index	The issuer must be an Australian corporation. In addition, Kangaroo bond issues are eligible.

Currency and Market of Issue. Only Australian dollar-denominated bonds that are issued in the Australian market and/or traded on the ASX are eligible. Bonds issued through private placements are excluded.

Maturity. Bonds must be of bullet maturity with no embedded optionality (no callable or extendable structures). Securities must have an initial term to maturity greater than or equal to one year.

Rating. Bonds must be rated by Standard & Poor's, Moody's or Fitch. The minimum credit rating for index inclusion is BBB-/Baa3/BBB-, depending on the agency's rating scheme. Thus, only investment-grade issues are included. For an issue rated by more than one ratings agency, the lowest of the ratings is used as the issue's credit rating. For credit rating band indices, the lowest rating allocated by any of the ratings agencies for each corresponding bond determines which rating band a bond belongs to.

Non-rated issues are not included in the indices except for "tapped" or reopened issues, which over the course of time become fungible with issues that are already eligible for inclusion. For such issues, the rating requirement is satisfied if the seasoned issue meets the requirement. For example, if a tapped issue is not rated by one of the stated rating agencies, it may still be included in an index if the seasoned issue into which it is fungible meets the eligibility criteria, even during the period before the tapped issue becomes exchangeable with the seasoned issue.

Pricing. Yieldbroker bond prices, which are intended to represent the mid-point between executable bid and ask prices based on institutional block size transactions. New issues must be priced by Yieldbroker to qualify for inclusion.

Coupon. Only fixed rate, non-zero coupon bonds are eligible. Fixed rate bonds with step-up, or extendable coupons are excluded. Inflation-adjusted coupon payout bonds are eligible only for the S&P/ASX Government Inflation-Linked 0+ Bond Index.

Collateral Types. Bonds secured by mortgages, with the exception of Covered Bonds, are excluded.

Bond Type. Deferral option callable and extendable bonds are excluded.

Size. At each rebalancing, the minimum par amount of each bond for index inclusion is set as follows:

Bond Type	Minimum Par Amount
Non-governmental bonds	A\$ 100 million
Australian government and state government bonds	A\$ 250 million
Australian government capital-indexed bonds*	A\$ 1 billion
Australian state government capital-indexed bonds*	A\$ 500 million

* Given the nature of inflation-linked bond issuances in the Australian market, a higher minimum par amount is set for the S&P/ASX Government Inflation-Linked 0+ Bond Index to ensure an investable offering.

Reinvestment. Coupon payments and maturity cash flows are invested in the index daily.

Settlement. Standard index settlement convention is same-day (e.g. T+0), unless otherwise specified. For month-ends that fall on a weekend, the interest accrued during the month will be reflected within the calendar month, regardless of settlement convention.

Index Construction

Index Weighting

Except for the S&P/ASX Corporate Issuer Equal Weight Bond Index, the indices are market-value weighted.

S&P/ASX Corporate Issuer Equal Weight Bond Index. The index is equal-weighted, whereby each issuer in the index is set to have an equal weight of 2% in the index at each semi-annual rebalancing. The weights of the issuers will float between rebalancings to reflect market movements.

For further details on market-value and equal-weight calculations, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Index Calculations

The total return is calculated by aggregating the interest return, reflecting the return due to paid and accrued interest, and price return, reflecting the gains or losses due to changes in the end-of-day price and principal repayments.

For further details regarding Index Calculations, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Index Maintenance

Each index is maintained in accordance with the following rules:

- Eligible bonds are added to an index at the next rebalancing, subject to the schedule of the relevant index rebalancing procedures.
- Any index bond that fails to meet any one of the eligibility factors is removed from the index on that rebalancing date.
- Par amounts of index bonds are adjusted on the rebalancing date to reflect any changes that have occurred since the previous rebalancing date, due to partial calls, tenders, etc. Similarly, changes to par amounts due to mandatory sinking fund payments and scheduled amortization payments are made effective after the close on the payment date.
- Any index bond that is downgraded below investment grade between rebalancings is removed at the next rebalancing.
- Bonds mature in the index, with proceeds reinvested in the index after the close of business on the maturity date.
- Where an index bond is in default or misses an interest payment, the price reported by our primary data vendor is used. However, the Index Committee may determine that the bond be removed from an index at a different price and may specify a price of \$0.00. The decision of the Index Committee is final.

Rebalancing

The S&P/ASX Australian Fixed Interest Index Series is reviewed and rebalanced on a monthly basis, except for the S&P/ASX Corporate Issuer Equal Weight Bond Index. The Index Committee, nevertheless, reserves the right to make adjustments to an index at any time that it believes appropriate.

Pro-forma additions, deletions and other changes to the indices arising from the monthly rebalancing are published, after the close of business, no earlier than three (3) business days prior to the last business day of the month. Bonds that are settled on or before five (5) business days prior to the last business day of the month make the cut-off for rebalancing screening. Newly-issued bonds that do not settle for the first time on or before five (5) business days prior to the last business day of the month are added at the subsequent month's rebalancing.

Changes become effective after the close on the last business day of the month (the rebalancing date).

S&P/ASX Corporate Issuer Equal Weight Bond Index. The index is reviewed and rebalanced on a semi-annual basis.

No issuers, or corresponding issuances, are added to the index between semi-annual rebalancings. If a bond is removed from the index between rebalancings, the weight of the bond is proportionally redistributed to the remaining bond issues for that issuer, leaving the total issuer weight unchanged.

Currency and Currency Hedged Indices

The indices are calculated in Australian dollars. In addition, the S&P/ASX Corporate Bond 0+ Index and S&P/ASX Corporate Bond 0+ BBB Rating Band Index are also available in New Zealand dollar hedged and unhedged versions.

Spot foreign exchange rates as supplied by Reuters are taken daily at 4:17 PM Sydney Time and used in the end-of-day calculation of the foreign currency version of the S&P/ASX Corporate Bond 0+ Index and S&P/ASX Corporate Bond 0+ BBB Rating Band Index.

WM/Reuters forward foreign exchange rates are taken daily at 04:00 PM London Time and used in the calculation of the foreign currency hedged version of the S&P/ASX Corporate Bond 0+ Index and S&P/ASX Corporate Bond 0+ BBB Rating Band Index. These mid-market fixings are calculated by the WM Company based on Reuters' data and appear on Reuters pages WMRA.

Currency and currency hedged versions of the indices, as well as maturity, sector and rating-based sub-indices are available. For a list of available sub-indices and tickers, please refer to S&P Dow Jones Indices' Fixed Income Index Directory available at www.spdji.com.

For more information on currency and currency hedged indices, please refer to S&P Dow Jones Indices' Fixed Income Index Mathematics Methodology.

Index Governance

Index Committee

The S&P/ASX Fixed Income Index Committee maintains the indices. All members of the Committee are full-time professionals at S&P Dow Jones Indices and the ASX. Meetings are held whenever deemed appropriate.

The Committee oversees the management of the indices, including determinations of intra-rebalancing changes, maintenance and inclusion policies, and other matters affecting the maintenance and calculation of the indices.

In fulfilling its responsibilities, the Committee has full and complete discretion to (i) amend, apply, or exempt the application of index rules and policies as circumstances may require and (ii) add, remove, or by-pass any bond in determining the composition of an index.

The Committee may rely on any information or documentation submitted to it or gathered by it that the Committee believes to be accurate. The Committee reserves the right to reinterpret publicly available information and to make changes to the indices based on a new interpretation of that information at its sole discretion. All Index Committee discussions are confidential.

The Index Committee is separate from and independent of other analytical groups at S&P Global. In particular, the Index Committee has no access to or influence on decisions by S&P Global Ratings analysts.

S&P Dow Jones Indices' Index Committees reserve the right to make exceptions when applying the methodology if the need arises. In any scenario where the treatment differs from the general rules stated in this document or supplemental documents, clients will receive sufficient notice, whenever possible.

In addition to the daily governance of indices and maintenance of index methodologies, at least once within any 12-month period, the Index Committee reviews the methodology to ensure the indices continue to achieve the stated objectives, and that the data and methodology remain effective. In certain instances, S&P Dow Jones Indices may publish a consultation inviting comments from external parties.

For information on Quality Assurance and Internal Reviews of Methodology, please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices document.

Index Policy

Announcements

Announcements of any relevant information pertaining to the indices are made after market close. Press releases are posted on the S&P Dow Jones Indices' Web site at www.spdji.com.

Holiday Schedule

The indices are calculated daily, throughout the calendar year. The only days an index is not calculated are on days when all exchanges where an index's constituents are listed are officially closed.

A complete holiday schedule for the year is available at www.spdji.com.

Rebalancing

The index committee may change the date of a given rebalancing for reasons including market holidays occurring on or around the scheduled rebalancing date. Any such change will be announced with proper advance notice where possible.

End-of-Day Calculation

Index levels are calculated at the end of each business day after market close, via S&P Dow Jones Indices' Web site, with the following exceptions which are calculated after the foreign exchange rates are available. This may be subject to change.

Index	Index Code
S&P/ASX Corporate Bond 0+ Index NZD	SPBDAC0N
S&P/ASX Corporate Bond 0+ Index NZD Hedged	SPBDACHT
S&P/ASX Corporate Bond 0+ BBB Rating Band Index NZD	SPBA3BNT
S&P/ASX Corporate Bond 0+ BBB Rating Band Index NZD Hedged	SPBA3BNH

Index Releases

Releases are issued by S&P Dow Jones Indices at the end of the business day.

Recalculation Policy

For information on the recalculation policy please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices document.

For information on Calculations and Pricing Disruptions, Expert Judgment and Data Hierarchy, please refer to S&P Dow Jones Indices' Fixed Income Policies & Practices document.

Contact Information

For questions regarding an index, please contact: index_services@spglobal.com.

Index Dissemination

Index levels are available through S&P Dow Jones Indices' Web site at www.spdji.com, major quote vendors (see codes below), numerous investment-oriented websites, and various print and electronic media.
